

If your nonprofit is set up in one state and wants to operate in another state, you may be required to register in that state.

You may be a nonprofit organization operating shared housing. You may have incorporated your organization in Nevada, for example, and you purchased real estate in California, where you will be providing housing for recovery residents. If you're operating in California, you will be required to foreign file, which means you must register your nonprofit organization with the California Secretary of State.

In addition, you may be required to file a tax return, financial statement disclosure, charitable solicitation registration, and apply for income tax exemption and property tax exemption. And if you're operating in additional states, you may be required to foreign file and file tax returns in those states too.

We can prepare these tax returns for you as part of our Nonprofit Compliance Package, so please reach out to your advisor or please reach out to our Nonprofit Department at nonprofits@andersonadvisors.com if you have the Nonprofit Compliance Package or if you're interested in purchasing.
